sequana medical

liver disease – malignant ascites – heart failure

KBC Digital Life Sciences Conference 22-23 September 2020

Forward-Looking Statements

Important Notice

IMPORTANT: You must read the following before continuing. The following applies to this document, the oral presentation of the information in this document by Sequana Medical NV (the "Company") or any person on behalf of the Company, and any question-and-answer session that follows the oral presentation:

- This presentation has been prepared by the management of the Company. It does not constitute or form part of, and should not be construed as, an offer, solicitation or invitation to subscribe for, underwrite or otherwise acquire, any securities of the Company or any member of its group nor should it or any part of it form the basis of, or be relied on in connection with, any contract to purchase or subscribe for any securities of the Company or any member of its group, nor shall it or any part of it form the basis of or be relied on in connection with any contract or commitment whatsoever. Prospective investors are required to make their own independent investigations and appraisals of the business and financial condition of the Company and the nature of its securities before taking any investment decision with respect to securities of the Company. This presentation is not a prospectus or offering memorandum.
- The information included in this presentation has been provided to you solely for your information and background and is subject to updating, completion, revision and amendment and such information may change materially. No person is under any obligation or undertaking to update or keep current the information contained in this presentation and any opinions expressed in relation thereto are subject to change without notice. No representation or warranty, express or implied, is made as to the fairness, accuracy, reasonableness or completeness of the information contained herein. Neither the Company nor any other person accepts any liability for any loss howsoever arising, directly or indirectly, from this presentation or its contents.
- The presentation also contains information from third parties. Third party industry publications, studies and surveys may also contain that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data. While the Company reasonably believes that each of these publications, studies and surveys has been prepared by a reputable source, the Company, or any of their respective parent or subsidiary undertakings or affiliates, or any of their respective directors, officers, employees, advisers or agents have independently verified the data contained therein. Thus, while the information from third parties has been accurately reproduced with no omissions that would render it misleading, and the Company believes it to be reliable, the Company cannot guarantee its accuracy or completeness. In addition, certain of the industry and market data contained in this presentation comes from the Company's own internal research and estimates based on the knowledge and experience of the Company's management in the market in which the Company operates. While the Company reasonably believes that such research and estimates are reasonable and reliable, they, and their underlying methodology and assumptions, have not been verified by any independent source for accuracy or completeness and are subject to change without notice. Accordingly, undue reliance should not be placed on any of the industry, market or competitive position data contained in this presentation.
- This presentation includes forward-looking statements that reflect the Company's intentions, beliefs or current expectations concerning, among other things, the Company's results, condition, performance, prospects, growth, strategies and the industry in which the Company operates. These forward-looking statements are subject to risks, uncertainties and assumptions and other factors that could cause the Company's actual results, condition, performance, prospects, growth or opportunities, as well as those of the markets it serves or intends to serve, to differ materially from those expressed in, or suggested by, these forward-looking statements. These statements may include, without limitation, any statements preceded by, followed by or including words such as "target," "believe," "expect," "aim," "intend," "may," "anticipate," "estimate," "plan," "project," "will," "can have," "likely," "should," "would," "could" and other words and terms of similar meaning or the negative thereof. The Company operates may differ materially from those made in or suggested by the forward-looking statements contained in this presentation. In addition, even if the Company's results, condition, and growth and the development of the industry in which the Company operates are consistent with the forward-looking statements contained in this presentation. In addition, even if the Company operates may not be indicative of results or developments in future periods. The Company and each of its directors, officers and employees expressly disclaim any obligation or undertaking to review, update or release any update of or revisions to any forward-looking statements in this presentation or any change in events, conditions or any change in events, conditions or circumstances on which these forward-looking statements are pased, except as required by applicable law or regulation.
- This document and any materials distributed in connection with this document are not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction. The distribution of this document in certain jurisdictions may be restricted by law and persons into whose possession this document comes should inform themselves about, and observe any such restrictions.
- The Company's securities have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States absent registration under the Securities Act or exemption from the registration requirement thereof.
- By attending the meeting where this presentation is presented or by accepting a copy of it, you agree to be bound by the foregoing limitations.

Disclaimers

Regulatory disclaimer:

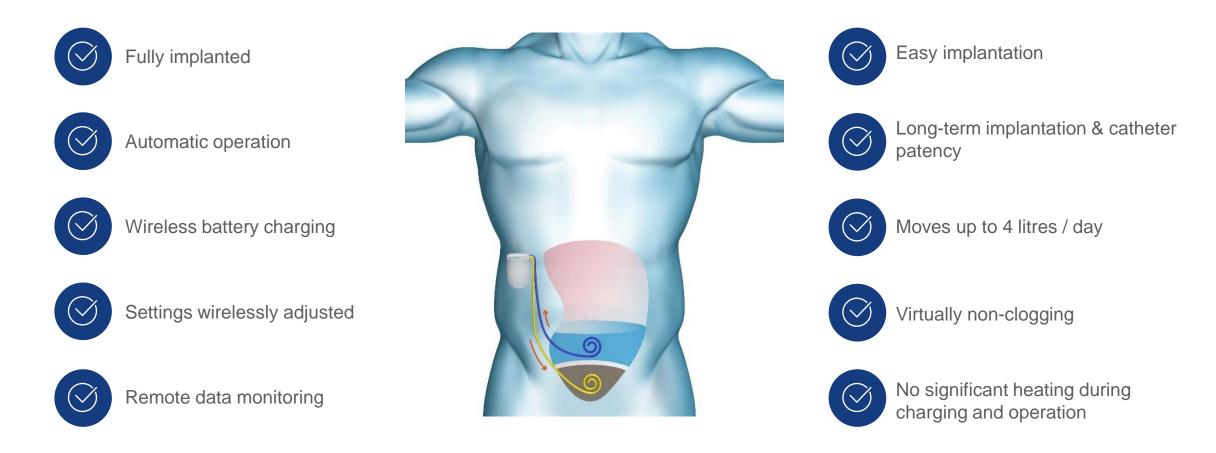

- The alfapump[®] system is not currently approved in the United States or Canada. In the United States and Canada, the alfapump[®] system is currently under clinical investigation (POSEIDON Study) and is being studied in adult patients with refractory or recurrent ascites due to cirrhosis. For more information regarding the POSEIDON clinical study see www.poseidonstudy.com.
- The DSR therapy is still in development and it should be noted that any statements regarding safety and efficacy arise from ongoing pre-clinical and clinical investigations which have yet to be completed. The DSR therapy is not currently approved for clinical research in the United States or Canada. There is no link between the DSR therapy and ongoing investigations with the **alfa**pump[®] system in Europe.

COVID-19 disclaimer:

- Sequana Medical is closely following the evolution of the COVID-19 global health crisis and is in constant dialogue with its partners to assess the impact and adapt its operations as necessary.
- Sequana Medical has put in place mitigation plans to minimise delays. The impact of increased demands on the healthcare systems, restrictions on non-essential hospital visits and procedures, social-distancing and travel restrictions may result in further delays to execution of clinical studies and impact sales.
- Sequana Medical will continue to update the market as needed and whenever possible.

Unique alfapump® platform

Using the bladder to manage fluid overload

Strong IP barriers through extensive patent portfolio & know-how

One platform – two products

alfapump[®]

Liver Disease (NASH)

Proven step change in liver refractory ascites and malignant ascites

Over 800 devices implanted

- POSEIDON pivotal study ongoing
- Self-commercialisation

alfapump® DSR

Heart Failure

Breakthrough approach to fluid overload in heart failure

Clinical proof-of-concept of Direct Sodium Removal (DSR)

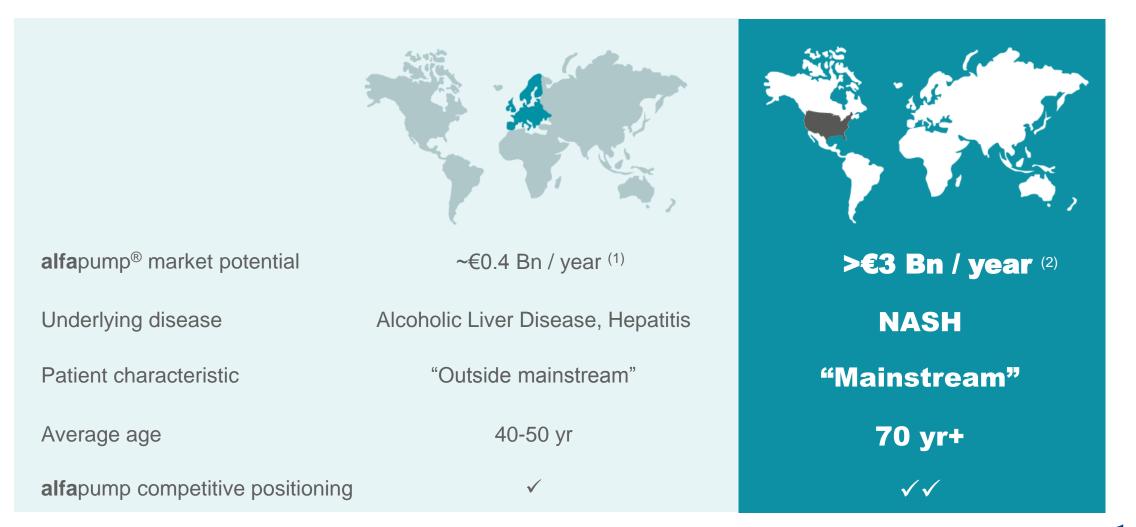

- RED DESERT repeated dose study ongoing
- Partnering after US feasibility study

Built upon proven European clinical & commercial experience

Source 1: Management estimate in US within 10-20 years, that is inclusive of estimated growth in prevalence of NASH for the US based on GlobalData Epidemiology Forecast to 2026 Source 2: Management estimate in US & EU by 2026 based on GlobalData Heart Failure Epidemiology Forecast to 2026; Costanzo et al. (2007). Kiglore et al (2017)

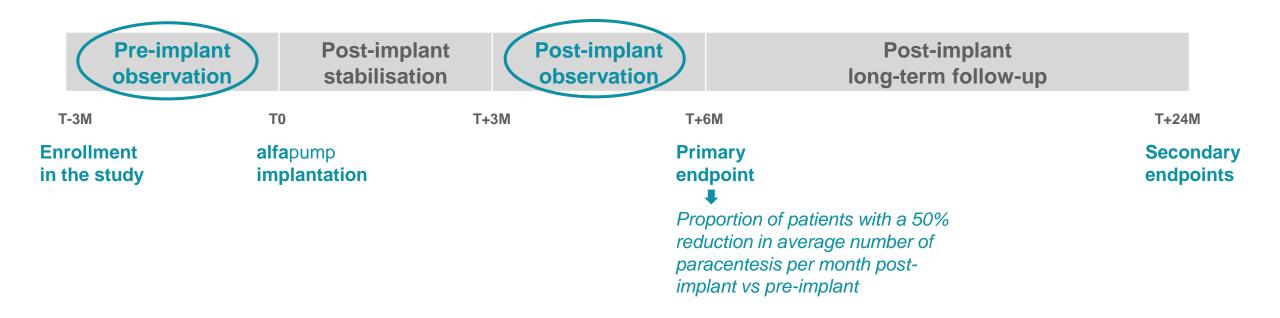

NASH drives US market attractiveness

Stronger competitive position in a much larger and dynamic market

POSEIDON – key value inflection points

North American pivotal study of the alfapump® in recurrent and refractory ascites due to liver cirrhosis

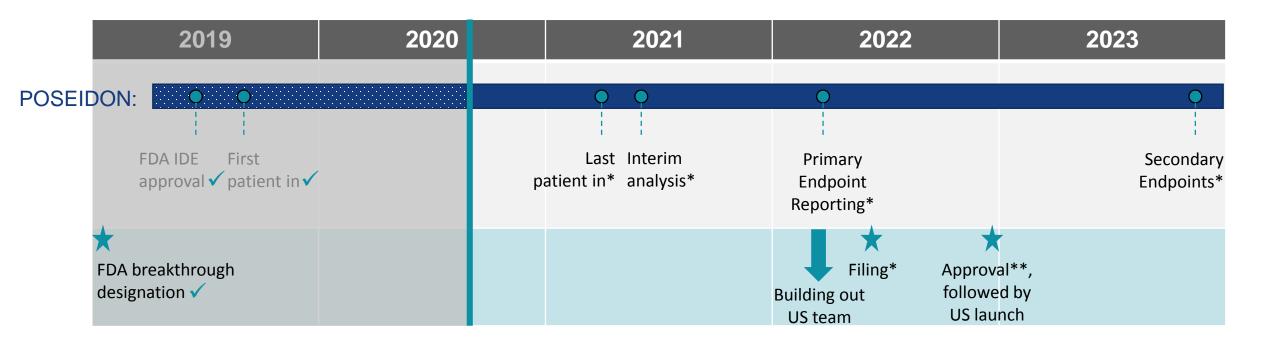

- Roll-in cohort: up to 30 patients ⇒ interim results expected in H1 2021
- Study cohort: up to 50 patients ⇒ primary endpoint read-out expected in Q1 2022

Note: Presented timelines are subject to further developments related to the COVID-19 pandemic

Key anticipated milestones

Final CMS rule on reimbursement for breakthrough devices expected to

further support reimbursement for the alfapump

* Subject to further developments related to the ongoing COVID-19 pandemic

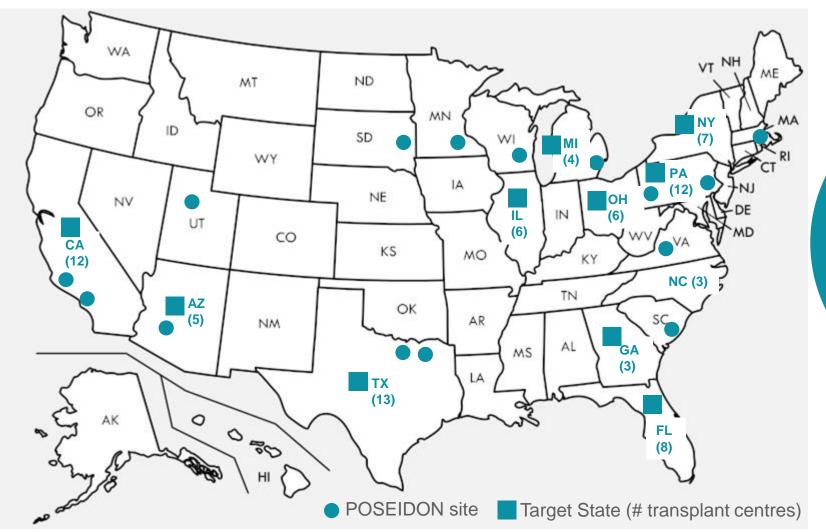

** Subject to FDA review timelines

FDA: Food and Drug Administration (US); IDE: Investigational Device Exemption; CMS: Centers for Medicare & Medicaid Services

sequana medical

Self-commercialisation in US through specialty salesforce

 \mathbf{P}

Initial focus on key transplant centres ~50-person team: 35 sales reps, 10 clinical, 5 corporate

Volume overload in heart failure – major clinical problem and key driver of costs

- 40% of heart failure patients on IV loop diuretics have a poor response⁽³⁾
- 24% hospital re-admission rate at 30 days⁽⁴⁾

Sources 1: Costanzo et al., J. Am. Coll., 2007; 2: Kilgore et al. (2017); 3: Testani, Circ Heart Failure, 2014 & 2016; 4: Ross et al. (2010)

Direct Sodium Removal (DSR)

Sequana Medical's breakthrough approach to volume overload in heart failure

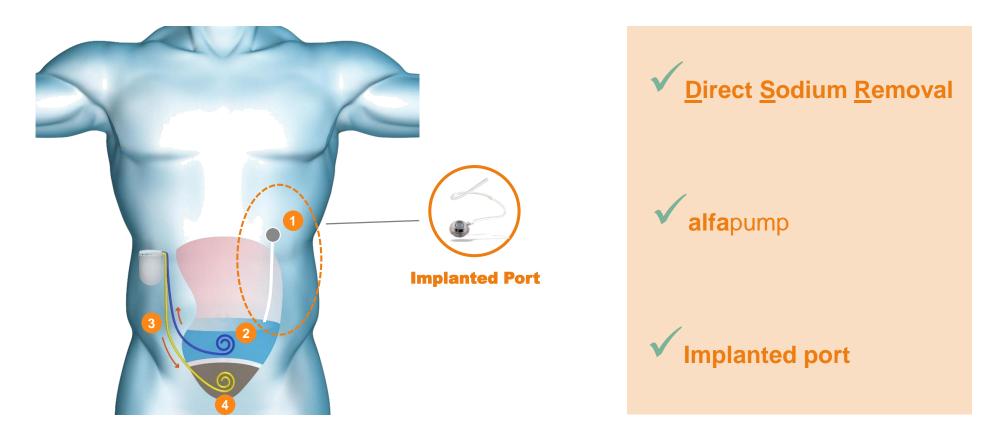

"DSR represents a new potential therapy for non-renal sodium and fluid removal in edematous disorders such as heart failure"

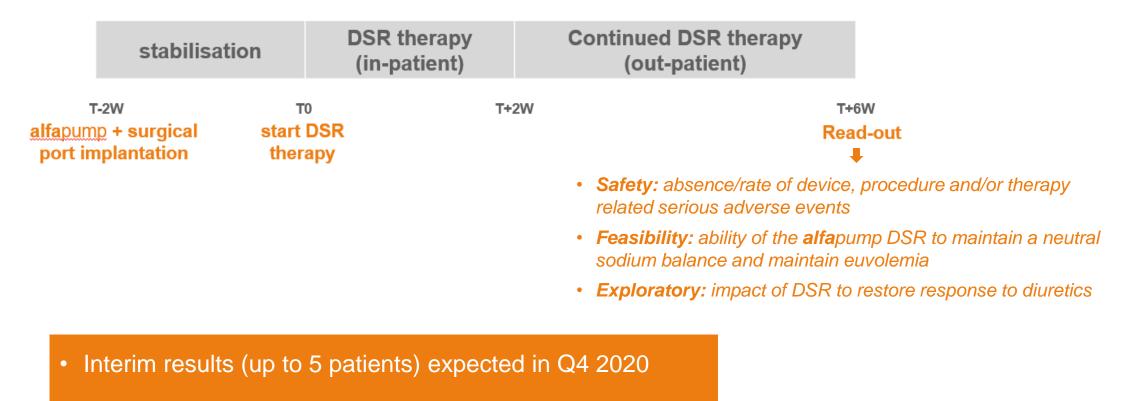

Fully implanted system for DSR therapy leveraging proven elements

Potential chronic therapy for heart failure patients that are not well controlled on diuretics

RED DESERT – key value inflection points

Repeated dose alfapump® DSR study for treatment of diuretic-resistant heart failure patients

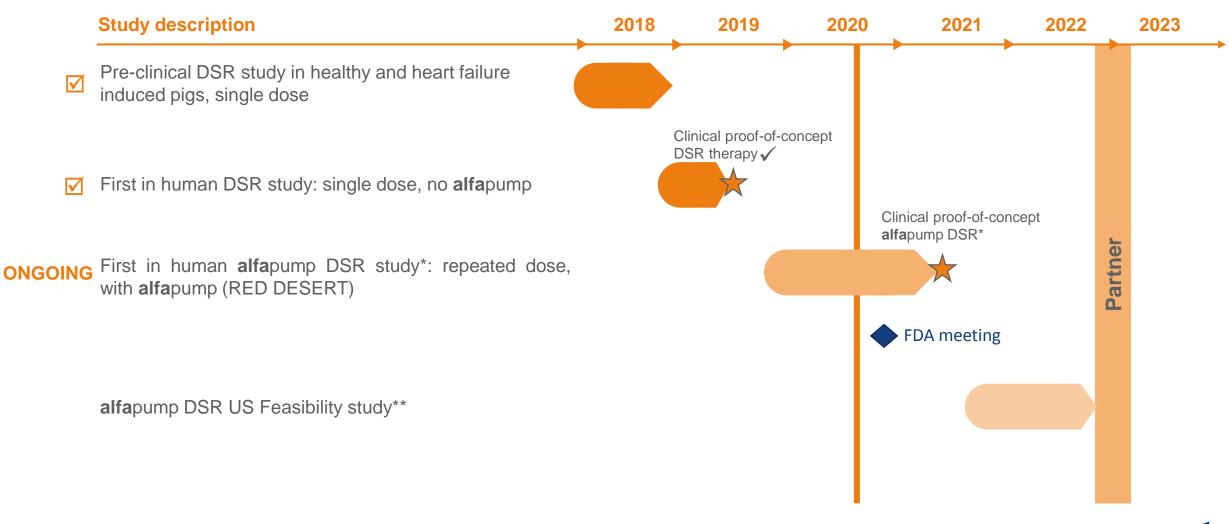

• Top-line results (up to 10 patients) expected in H1 2021

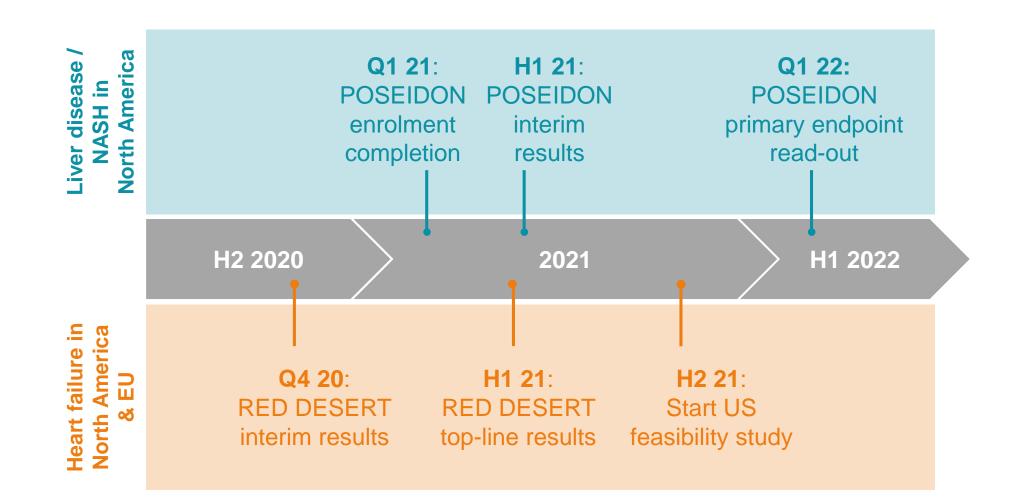

Note: Presented timelines are subject to further developments related to the COVID-19 pandemic

alfapump® DSR development strategy

* Subject to further developments related to the ongoing COVID-19 pandemic ** Subject to change and/or feedback from applicable regulatory authorities

Expected Core Value Drivers & Outlook

Note: Presented timelines are subject to further developments related to the COVID-19 pandemic
