REPORT OF THE BOARD OF DIRECTORS IN ACCORDANCE WITH ARTICLES 7:180, 7:191 AND 7:193 OF THE BELGIAN COMPANIES AND ASSOCIATIONS CODE

1. INTRODUCTION

On 2 September 2016, Bootstrap Europe S.C.Sp. ("**Bootstrap**") granted a secured loan to Sequana Medical AG (the legal form of Sequana Medical NV (the "**Company**") before its seat transfer from Switzerland to Belgium on 1 October 2018) for an aggregate maximum amount of up to CHF 10.0 million (of which an amount of CHF 5.0 million was drawn; the loan has in the meantime been repaid by the Company) (the "**Loan Facility**"). In consideration of the willingness of Bootstrap to provide the Loan Facility, the Company granted Bootstrap on 2 September 2016 the right to subscribe to a certain number of shares in the Company (the "**Former Bootstrap Warrant**") for a duration of ten years (which was allowed under Swiss law and not uncommon for that type of provided venture funding). These arrangements were set out in a warrant agreement dated 2 September 2016 and were amended on 28 April 2017, 1 October 2018 and 20 December 2018.

Within the framework of the Company's seat transfer from Switzerland to Belgium on 1 October 2018, the term of the Former Bootstrap Warrant was reduced to 5 years, but the Company agreed to issue a new subscription right upon expiry of the current 5 year term in order to reflect the initially agreed 10 year term. Furthermore, as a result of the Company's initial public offering ("**IPO**") in 2019 and the IPO Share Consolidation (as defined below) that occurred at that time, the Former Bootstrap Warrant was restructured to give the right to subscribe for an aggregate of 302,804 new shares at an exercise price of EUR 3.21 per share. Accordingly, as the Former Bootstrap Warrant would expire in its initial form as 'subscription right' on 2 September 2021, the Company agreed on 1 September 2021 to submit a proposal to its shareholders to approve a new subscription right to the benefit of Bootstrap to subscribe for new shares of the Company, having terms and conditions that are (*mutatis mutandis*) equivalent to the terms of the Former Bootstrap Warrant issued (as set out in the aforementioned warrant agreement), but with an exercise period ending on 2 September 2026 (*i.e.* ten years after the issuance of the Former Bootstrap Warrant).

In view hereof, the board of directors will submit to the extraordinary general meeting of shareholders of the Company to be convened on 27 May 2022 (or on 22 June 2022 should the required quorum not be achieved at the first meeting) (the "**EGM**") the proposal to issue ten new warrants to the benefit of Bootstrap, represented by ten separate subscription rights (the "**Bootstrap Warrants**") at the terms and conditions as further described below in this report, and to dis-apply, in the interest of the Company, the preferential subscription right of the existing shareholders of the Company and, as far as needed, of the holders of outstanding subscription rights (share options), to the benefit of Bootstrap (and its permitted successors and assigns) (the "**Transaction**").

Shareholders should note that the transaction that the Company entered into with Bootstrap is complex, that the Bootstrap Warrants are a complex instrument, and that Bootstrap may benefit from an important discount when exercising its Bootstrap Warrants and subscribing for new shares, as described below.

Shareholders should also note that the Bootstrap Warrants are merely the continuation of a subscription right that has already been approved, granted and issued in the past (and which has been reflected in the Company's articles of association since 2018). In other words, the potential dilutive effects of the Bootstrap Warrants have already been approved in the past, and the approval of the new Bootstrap Warrants will not lead to an additional dilution.

This report has been prepared by the board of directors of the Company in accordance with Articles 7:180, 7:191 and 7:193 of the Belgian Companies and Associations Code (as defined below) for the purpose of the proposed issuance of the Bootstrap Warrants, with cancellation of the preferential subscription right of the Company's existing shareholders, and in so far as required, of the Company's existing holders of subscription rights (share options), to the benefit of Bootstrap (and its permitted successors and assigns).

In accordance with Article 7:180 of the Belgian Companies and Associations Code, the board of directors provides in this report a justification of the proposed Transaction, with notably a justification of the proposed exercise price of the Bootstrap Warrants and a description of the consequences of the proposed Transaction for the financial and shareholder rights of the shareholders of the Company.

In accordance with Article 7:191 of the Belgian Companies and Associations Code, the board of directors also provides in this report a justification of the proposed dis-application of the statutory preferential subscription right of the existing shareholders and, in so far as required, of the existing holders of subscription rights (share options) to the benefit of Bootstrap (and its permitted successors and assigns), and a description of the consequences thereof for the financial and shareholder rights of the shareholders.

In accordance with Article 7:193 of the Belgian Companies and Associations Code, the justification of the proposed Transaction and the proposed exercise price of the Bootstrap Warrants takes into account in particular the financial situation of the Company, the identity of Bootstrap, and the nature and importance of the contribution of Bootstrap.

This report must be read together with the report prepared in accordance with Articles 7:180, 7:191 and 7:193 of the Belgian Companies and Associations Code by the Company's statutory auditor, PwC Bedrijfsrevisoren BV, a private company with limited liability organised and existing under the laws of Belgium, with registered office at Culliganlaan 5, 1831 Diegem, Belgium, represented by Mr. Peter D'hondt, auditor.

This report has been prepared in accordance with the Belgian Companies and Associations Code of 23 March 2019 (as amended) (the "**Belgian Companies and Associations Code**").

2. CONTEXT OF THE TRANSACTION

As mentioned, on 2 September 2016, Bootstrap granted a secured loan to Sequana Medical AG (the Company's legal form before its seat transfer from Switzerland to Belgium on 1 October 2018) for an aggregate amount of CHF 10.0 million (of which an amount of CHF 5.0 million was drawn; the loan has in the meantime been repaid by the Company). In consideration of the willingness of Bootstrap to provide the Loan Facility, the Company granted Bootstrap on 2 September 2016 the right to subscribe to a certain number of shares in the Company for a duration of ten years (which was allowed under Swiss law and not uncommon for that type of

provided venture funding). These arrangements were set out in a warrant agreement dated 2 September 2016 and were amended on 28 April 2017, 1 October 2018 and 20 December 2018.

Within the framework of the Company's seat transfer from Switzerland to Belgium on 1 October 2018, the term of the Former Bootstrap Warrant was reduced to 5 years, but the Company agreed to issue a new subscription right upon expiry of the current 5 year term in order to reflect the initially agreed 10 year term.

As the Former Bootstrap Warrant would expire in its initial form as 'subscription right' on 2 September 2021, the Company will submit a proposal to the EGM to approve the issuance of the ten Bootstrap Warrants, having terms and conditions that are (*mutatis mutandis*) equivalent to the terms of the Former Bootstrap Warrant issued (as set out in the aforementioned warrant agreement), but with an exercise period ending on 2 September 2026 (*i.e.* ten years after the issuance of the Former Bootstrap Warrant) in line with what was initially agreed with Bootstrap and which was initially agreed when the Company was still a Swiss company.

Bootstrap is a Luxembourg-based private lender that provides growth debt to technology and life sciences companies in industries ranging from green energy and genetic testing to SaaS, fintech and Smart city solutions. Now at its third fund, the team at Bootstrap has invested in more than 260 growth debt transactions in Europe fast-growing companies, 12 jurisdictions with aggregate transaction values of over EUR 750 million. Bootstrap is headquartered in Luxembourg and has offices in Zurich and London.

The Company and Bootstrap agreed that the issuance of certain subscription rights (including the Bootstrap Warrants) to the benefit of Bootstrap was an essential part of the consideration offered to Bootstrap for providing the Loan Facility in September 2016 (when the Company was still an early stage private company incorporated in Switzerland). The terms of the contractual arrangements between the Company and Bootstrap (of which the issuance of certain subscription rights (including the Bootstrap Warrants) formed an integral part) had been determined during at arm's length negotiations between the Company and Bootstrap at the time. Bootstrap was and still is not related to the Company and its management.

3. PROPOSED TRANSACTION

3.1. Terms and conditions of the Bootstrap Warrants

In accordance with what was agreed between the Company and Bootstrap, the board of directors of the Company proposes to the EGM to approve the issuance of the Bootstrap Warrants, and to dis-apply, in the interest of the Company, the preferential subscription right of the existing shareholders of the Company and, as far as needed, of the holders of outstanding subscription rights of the Company, to the benefit of Bootstrap (and its permitted successors and assigns).

The proposed terms and conditions (the "**Conditions**") of the Bootstrap Warrants are set out in Annex A to this report. The main Conditions can, for information purposes, be summarised as follows and are, *mutatis mutandis*, equivalent to the terms and conditions of the Former Bootstrap Warrant:

- (a) Issuer: The Company (Sequana Medical NV).
- (b) Number of subscription rights issued: Ten (10) subscription rights of the Company (the Bootstrap Warrants).
- (c) Subscription right for ordinary shares: The Bootstrap Warrants give Bootstrap the right to subscribe for a number of new ordinary shares of the Company, in whole or in part, at one or several occasions, through one of the following exercise mechanisms:

- (i) Condition 4.8(a) gives Bootstrap the right to subscribe upon exercise of the 10 Bootstrap Warrants for an aggregate of up to 302,804 new shares of the Company at an issue price of EUR 3.21 per underlying new share (the "**Cash Exercise**");
- (ii) Condition 4.8(b) gives Bootstrap the right to subscribe to a reduced number of new shares by means of a cashless exercise mechanism in function of the value of the Company's shares on the regulated market of Euronext Brussels (the "**Cashless Exercise**");⁽¹⁾ and
- (iii) Condition 5 gives Bootstrap the right to exercise the Bootstrap Warrants without the issuance of new shares, whereby the Company pays Bootstrap the balance between the issue price of EUR 3.21 per new share and the value the Company's shares on the regulated market of Euronext Brussels, and this for up to 302,804 underlying shares (the "**Net Exercise**").⁽²⁾ This Net Exercise mechanism can only be exercised, case of (a) the completion of the sale or transfer of the legal or beneficial interest in any shares of the Company conferring in aggregate 50% or more of the voting rights at that time to one or more persons acting in concert, (b) the sale by the Company of the whole or substantially the whole of its undertaking, and (c) a merger or comparable transaction in which the Company is not the surviving entity.

Notes:

- (1) For more information on the exact number of shares to be issued to Bootstrap under the Cashless Exercise mechanism, reference is made to the formula included in Condition 4.8(b). By way of illustration, subject to the methodological reservations noted in paragraph 7.1, if all Bootstrap Warrants would be fully exercised in accordance with the Cashless Exercise mechanism set out in Condition 4.8(b), 156,969 new shares would need to be issued by the Company against an issue price of EUR 0.1036 per new share (assuming that the reference price of the Company's share on the regulated market of Euronext Brussels (used to determine the number of shares to be issued in accordance with the applicable formula set out in Condition 4.8(b)) is equal to EUR 6.45 per share (*i.e.*, the average of the closing prices of the Company's shares on the regulated market of Euronext Brussels over the thirty calendar day period ending on (and including) 14 April 2022).
- (2) For more information on the exact amount to be paid to Bootstrap under the Net Exercise mechanism, reference is made to the formula included in Condition 5. By way of illustration, subject to the methodological reservations noted in paragraph 7.1, if the Bootstrap Warrants are fully exercised in accordance with the Net Exercise mechanism set out in Condition 5 (which is only possible in the event of specific sale events), 0 new shares will be issued, but an amount of EUR 981,084.96 should be paid by the Company to Bootstrap (assuming that the reference price of the Company's share on the regulated market of Euronext Brussels (used to determine the amount to be paid in accordance with the applicable formula set out in Condition 5) is equal to EUR 6.45 per share) (*i.e.*, the average of the closing prices of the Company's shares on the regulated market of Euronext Brussels over the thirty calendar day period ending on (and including) 14 April 2022).

This number of shares to be issued upon exercise of the Bootstrap Warrants is subject to certain adjustments in case of certain dilutive corporate actions, it being understood that transactions or operations approved by the general shareholders' meeting of the Company or which are implemented or occur on the basis of an authorisation that was provided or approved by the general shareholders' meeting (such as, but not limited to, the authorised capital) shall not lead to such adjustments.

- (d) Exercise price: The exercise price of the Bootstrap Warrants depends on the applicable exercise mechanism:

- (i) In the event of a Cash Exercise, the Bootstrap Warrants can be exercised at a price of EUR 3.21 per new share. This exercise price is subject to certain adjustments in case of certain dilutive corporate actions, it being understood that transactions or operations approved by the general shareholders' meeting of the Company or are implemented or occur on the basis of an authorisation that was provided or approved by the general shareholders' meeting (such as, but not limited to, the authorised capital) shall not lead to adjustments;
 - (ii) In the event of a Cashless Exercise, the Bootstrap Warrants can be exercised at a price equal to the fractional value of the shares of the Company, i.e., currently rounded EUR 0.1036 per share; and
 - (iii) In the event of a Net Exercise, no exercise price is to be paid by Bootstrap.
- (e) Duration: The Bootstrap Warrants have a term commencing on the date on which the Bootstrap Warrants have been issued by the EGM and ending on 11:59 p.m. (Belgian time) on 2 September 2026.
- (f) Nature of the shares issuable upon exercise: The Bootstrap Warrants shall entitle the holders thereof to subscribe for new ordinary shares to be issued by the Company in registered form. The new shares to be issued at the occasion of the exercise of the Bootstrap Warrants shall have the same rights and benefits as, and rank *pari passu* in all respects, including as to entitlements to dividends and other distributions, with, the existing and outstanding shares of the Company at the moment of their issuance, and will be entitled to dividends and other distributions in respect of which the relevant record date or due date falls on or after the date of issue of the shares.
- (g) Capital increase and allocation of the exercise price: Upon each exercise of the Bootstrap Warrants and the resulting issuance of new shares, the Company's share capital will be increased. Subject to, and in accordance with, the provisions of the Conditions, upon exercise of the Bootstrap Warrants and issue of new shares, the aggregate amount of the exercise price of the Bootstrap Warrants will be allocated to the share capital of the Company. If the applicable issue price, per underlying new share issued, is greater than the fractional value of the existing shares immediately prior to the capital increase, then the applicable aggregate issue price shall be allocated in such a manner that per new share issued (i) a part of the applicable aggregate issue price equal to the fractional value of the existing shares immediately prior to the capital increase shall be booked as share capital, and (ii) the balance of the applicable aggregate issue price shall be booked as issue premium. This issue premium will be booked on a separate account as net equity on the liabilities side of the Company's balance sheet and can only be reduced in execution of a valid decision of the Company in accordance with the Belgian Companies and Associations Code. Following the issue of the new shares and the capital increase resulting therefrom, each of the shares (existing and new) shall represent the same fraction of the Company's share capital.
- (h) Listing of the underlying shares: The new shares to be issued upon exercise of the Bootstrap Warrants shall need to be admitted to trading on the regulated market of Euronext Brussels in accordance with paragraph 3.5 below.
- (i) Form of the Bootstrap Warrants: The Bootstrap Warrants are issued in, and should remain in, registered form.
- (j) No listing of the Bootstrap Warrants: The Bootstrap Warrants will not be listed at any time on a securities exchange, regulated market or similar securities market.

- (k) Transferability of the Bootstrap Warrants: Bootstrap shall be entitled to transfer or assign the Bootstrap Warrants. Notwithstanding the foregoing, Bootstrap should notify the Company of its intent to transfer the Bootstrap Warrants. The Conditions also provide that Bootstrap shall not be entitled to transfer the Bootstrap Warrants to an entity that is a customer, competitor or supplier of the Company, or an entity that holds 20% or more of the Company's share capital of any such customer, competitor or supplier.

For the sake of completeness, the board of directors will submit to the EGM the approval and ratification, insofar as required in accordance with Article 7:151 of the Belgian Companies and Associations Code, of all clauses included in the Conditions, which come into effect at the moment a change of control occurs and which fall or could be considered to fall within the scope of Article 7:151 of the Belgian Companies and Associations Code (relating to the granting of rights to third parties that substantially affect the Company's assets and liabilities, or give rise to a substantial debt or commitment on its behalf, when the exercise of these rights is subject to the launching of a public takeover bid on the shares of the Company or to a change in the control exercised over it), including, without limitation, the aforementioned Net Exercise mechanism in case of certain specific sale events set out in the Conditions.

3.2. Dis-application of the preferential subscription right of the existing shareholders

In order to allow the Company to allocate the Bootstrap Warrants to Bootstrap, as agreed between the Company and Bootstrap, the board of directors proposes to the EGM to dis-apply the preferential subscription right of the Company's existing shareholders and, in so far as required, of the Company's existing holders of subscription rights (share options), in accordance with Articles 7:191 and 7:193 of the Belgian Companies and Associations Code, to the benefit of Bootstrap (and its permitted successors and assigns as provided for by the Conditions). Bootstrap is a company incorporated under the laws of Grand Duchy of Luxembourg, with registered office at 17 Boulevard F.W. Raiffeisen, L-2411 Luxembourg, Grand-Duchy of Luxembourg, registered with the Luxembourgish company register under number B198842.

Bootstrap is entitled to transfer or assign the Bootstrap Warrants. Notwithstanding the foregoing, Bootstrap should notify the Company of its intent to transfer the Bootstrap Warrants. The Conditions also provide that Bootstrap shall not be entitled to transfer the Bootstrap Warrants to an entity that is a customer, competitor or supplier of the Company, or an entity that holds 20% or more of the Company's share capital of any such customer, competitor or supplier.

3.3. Exercise Price of the proposed Bootstrap Warrant

As set out above in paragraph 3.1(d), the exercise price of the Bootstrap Warrants depends on the applicable exercise mechanism:

- (a) In the event of a Cash Exercise, the Bootstrap Warrants can be exercised at a price of EUR 3.21 per new share;
- (b) In the event of a Cashless Exercise, the Bootstrap Warrants can be exercised at a price equal to the fractional value of the shares of the Company, i.e., currently rounded EUR 0.1036 per share; and
- (c) In the event of a Net Exercise, no exercise price is to be paid by Bootstrap.

Subject to, and in accordance with, the provisions of the Conditions, upon exercise of the Bootstrap Warrants and issue of new shares in the framework of a Cash Exercise or a Cashless Exercise, the aggregate amount of the exercise price of the Bootstrap Warrants will be allocated to the share capital of the Company. If the applicable issue price, per underlying new share

issued, is greater than the fractional value of the existing shares immediately prior to the capital increase, then the applicable aggregate issue price shall be allocated in such a manner that per new share issued (i) a part of the applicable aggregate issue price equal to the fractional value of the existing shares immediately prior to the capital increase shall be booked as share capital, and (ii) the balance of the applicable aggregate issue price shall be booked as issue premium. This issue premium will be booked on a separate account as net equity on the liabilities side of the Company's balance sheet and can only be reduced in execution of a valid decision of the Company in accordance with the Belgian Companies and Associations Code. Following the issue of the new shares and the capital increase resulting therefrom, each of the shares (existing and new) shall represent the same fraction of the Company's share capital.

3.4. The rights attached to the new shares to be issued upon exercise of the Bootstrap Warrants

As mentioned above, the new shares to be issued at the occasion of the exercise of the Bootstrap Warrants shall have the same rights and benefits as, and rank *pari passu* in all respects, including as to entitlements to dividends and other distributions, with, the existing and outstanding shares of the Company at the moment of their issuance, and will be entitled to dividends and other distributions in respect of which the relevant record date or due date falls on or after the date of issue of the shares.

3.5. Admission to listing and trading of the new shares to be issued upon exercise of the Bootstrap Warrants

The new shares to be issued upon exercise of the Bootstrap Warrants shall need to be admitted to listing and trading on the regulated market of Euronext Brussels. For this purpose, the Company is to make the necessary filings and applications, and, as the case may be, prepare a listing prospectus, all as required by applicable regulations, in order to permit an admission to listing and trading on the regulated market of Euronext Brussels following the issuance of the new shares upon exercise of the Bootstrap Warrants in accordance with the provisions of the Conditions.

4. JUSTIFICATION OF THE PROPOSED TRANSACTION

The issuance of subscription rights to Bootstrap (including the Bootstrap Warrants) was one of the elements that had been agreed by the Company in consideration of the willingness of Bootstrap to provide the Loan Facility in September 2016 (when the Company was still an early stage private company incorporated in Switzerland). This loan has been repaid by the Company on 16 July 2020, but the right to subscribe to the Company's shares (through the Bootstrap Warrants) remains outstanding to date (as Bootstrap has not yet used its right to subscribe to shares in the Company).

The net proceeds paid to the Company by Bootstrap in the framework of the Loan Facility (of which the issuance of certain subscription rights (including the Bootstrap Warrants) formed an integral part) was an important source of funding that allowed the Company to finance its development and activities.

Furthermore, while it cannot be guaranteed that the Bootstrap Warrants will ultimately be exercised, the exercise of the proposed Bootstrap Warrants by Bootstrap, and the payment of the relevant exercise price of the Bootstrap Warrants by Bootstrap, if any, will enable the Company to obtain additional cash resources, which can be further used to fund the Company's business activities, and to strengthen its balance sheet.

The board of directors also notes that the Bootstrap Warrants are merely the continuation of a subscription right that has already been approved, granted and issued in the past (and which has

been reflected in the Company's articles of association since 2018), but which expired. In other words, the potential dilutive effects of the Bootstrap Warrants have already been approved in the past. In line with what was agreed at the time of the Company's seat transfer from Switzerland to Belgium, the Former Bootstrap Warrant will need to be renewed to reflect the initial 10 year term thereof. If the Company would not respect these contractual arrangements, it would not only be subject to potential (contractual liability) claim and litigation, but it would potentially also affect the Company's reputation towards other parties providing funding (which would not be in the interest of the Company and its stakeholders). The board of directors underlines that the approval of the new Bootstrap Warrants will not lead to an additional dilution.

For the justification of the exercise price of the Bootstrap Warrants, see paragraph 5 of this report.

In view hereof, the board of directors of the Company believes the proposed issuance of the Bootstrap Warrants to be in the interest of the Company and its stakeholders.

For the sake of completeness, it should be noted that the agreement between the Company and Bootstrap of 1 September 2021 provides that as long as the Bootstrap Warrants have not been issued, the board of directors shall, at Bootstrap's first request reasonably justified by the circumstances, provide to Bootstrap the possibility to subscribe for up to 302,804 new shares of the Company at an issue price of EUR 3.21 per new share, at terms and conditions that are (*mutatis mutandis*) equivalent to the terms of the Bootstrap Warrants that are to be issued, and to issue such new shares on the basis of the Company's authorised capital (or otherwise). Upon exercise by Bootstrap of such right to subscribe for new shares of the Company, the Company shall have a term of fifteen (15) business days to issue the relevant new shares to Bootstrap against payment of the relevant issue price of such new shares.

5. JUSTIFICATION OF THE EXERCISE PRICE OF THE BOOTSTRAP WARRANTS

The mechanisms pursuant to which the exercise price of the Bootstrap Warrants has been determined in the Conditions are the result of negotiations that occurred between the Company and Bootstrap in the past (when the Company was still an early stage private company incorporated in Switzerland).

In the framework of the Company's IPO and listing on the regulated market of Euronext Brussels, a consolidation, split, exchange and conversion with respect to all outstanding shares and warrants of the Company (the "**IPO Share Consolidation**") was carried out on 12 February 2019 (based on an approval by the extraordinary shareholders' meeting on 18 January 2019). As a result of this IPO Share Consolidation, Bootstrap had the right to subscribe upon exercise of the Bootstrap Warrants, for a maximum of 302,804 new shares of the Company at an exercise price of EUR 3.21 per new share (which is equal to CHF 3.63 per new share after conversion using the then agreed upon conversion rate of EUR 1.00 for CHF 1.1316), or EUR 972,000.84 in total (which is equal to ca. CHF 1,099,916.15 after conversion using the agreed upon conversion rate of EUR 1.00 for CHF 1.1316).

The board of directors underlines that the IPO Share Consolidation (and its dilutive impact on the then outstanding securities, including the Former Bootstrap Warrant granted to the benefit of Bootstrap) has been approved and agreed to by the Company's general shareholders' meetings held in the past (and which was reflected in Article 11.2 of the Company's articles of association).

The exercise price of the Bootstrap Warrants is subject to customary downward adjustments in case of certain dilutive corporate actions set out in the Conditions, it being understood that transactions or operations approved by the general shareholders' meeting of the Company or

are implemented or occur on the basis of an authorisation that was provided or approved by the general shareholders' meeting (such as, but not limited to, the authorised capital) shall not lead to adjustments.

As mentioned, the terms of the Conditions (including the exercise price of the Bootstrap Warrants) are a reflection of terms that have been determined during at arm's length negotiations between the Company and Bootstrap.

The aforementioned exercise price of the Bootstrap Warrants reflects a substantial discount to the Company's shares today, but this is the result of the agreed IPO Share Consolidation of February 2019 (which has already been approved by the Company's shareholders) and the contractual arrangements agreed to in September 2016 (when the Company was still an early stage private company incorporated in Switzerland).

Hence, in view of all of the foregoing, and the fact that the exercise price is a continuation of the same exercise price of the Former Bootstrap Warrant that expired, the board of directors believes that the exercise price of the Bootstrap Warrants can be sufficiently justified and is not prejudicial to the existing shareholders and, in so far as required, of existing holders of subscription rights (share options) of the Company.

6. JUSTIFICATION OF THE DIS-APPLICATION OF THE PREFERENTIAL SUBSCRIPTION RIGHT

Within the framework of the contemplated issuance of the Bootstrap Warrants as described above, the board of directors proposes to the EGM to dis-apply the preferential subscription right of the Company's existing shareholders and, in so far as required, of the Company's existing holders of subscription rights (share options), in accordance with Articles 7:191 and 7:193 of the Belgian Companies and Associations Code, to the benefit of Bootstrap (and its permitted successors and assigns as provided for by Conditions) .

The dis-application of the preferential subscription right is necessary in order to allow the Company to issue the Bootstrap Warrants to the benefit of Bootstrap in accordance with the Conditions and the contractual arrangement between the Company and Bootstrap. For an overview of the justification and benefits of the proposed Transaction, reference is made to paragraph 4 above.

For all of the above reasons, the board of directors recommends that the EGM approves the contemplated issuance of Bootstrap Warrants with dis-application of the preferential subscription right to the benefit of Bootstrap (and its permitted successors and assigns as provided for by the Conditions), and this notwithstanding the dilution following from the exercise of the Bootstrap Warrants for the shareholders and, as the case may be, the holders of subscription rights (share options), is in the interest of both the Company and the existing shareholders and holders of subscription rights (share options).

7. CERTAIN FINANCIAL AND OTHER CONSEQUENCES

7.1. Introductory comments

The following paragraphs provide an overview of certain financial consequences of the exercise of the Bootstrap Warrants. For further information with regard to the financial consequences of the exercise of the Bootstrap Warrants, reference is also made to the report prepared in accordance with Articles 7:180, 7:191 and 7:193 of the Belgian Companies and Associations Code by the statutory auditor of the Company, PwC Bedrijfsrevisoren BV.

The actual financial consequences resulting from the exercise of the Bootstrap Warrants cannot yet be determined with certainty, as it is not known which of the different agreed exercise mechanisms Bootstrap will use upon exercise of the Bootstrap Warrants (see paragraph 3.1(c) above).

The actual financial consequences resulting from the exercise of the outstanding Share Options (as defined and further detailed below) and the issuance of new shares pursuant to the contribution in kind of the Convertible Loan Payable (as defined and further detailed below) cannot yet be determined with certainty.

Accordingly, the discussion herein of the financial consequences of the exercise of the Bootstrap Warrants for existing shareholders is purely illustrative and hypothetical, and is based on purely indicative financial parameters (where relevant). The actual number of shares to be issued in connection with the transactions and their issue price or exercise price may vary significantly from the hypothetical values used in this report.

Subject to the foregoing reservations, for the purposes of the illustration of some of the financial consequences and notably the dilution for the shareholders, the following parameters and assumptions were used:

- (a) At the date of this report, the share capital of the Company amounts to EUR 2,460,486.98, represented by 23,746,528 shares without nominal value, each representing the same fraction of the share capital, *i.e.*, rounded EUR 0.1036. The share capital is entirely and unconditionally subscribed for and is fully paid-up.
- (b) At the date of this report, 2,388,742 shares can still be issued by the Company, of which:
 - (i) 261,895 new shares can be issued upon the exercise 90,780 share options that are still outstanding (at the date of this report) under the "Executive Share Options" plan for staff members and consultants of the Company, entitling the holder thereof to acquire ca. 2.88 shares when exercising one of his or her share options (the "**Executive Share Options**");
 - (ii) 1,126,847 new shares can be issued upon the exercise of 1,126,847 share options (each share option having the form of a subscription right) that are still outstanding (at the date of this report) under the "2018 Share Options" plan for directors, employees and other staff members of the Company and its subsidiaries, entitling the holder thereof to acquire one new share when exercising one of his or her share options (the "**2018 Share Options**");
 - (iii) 1,000,000 new shares can be issued upon the exercise of 1,000,000 share options (each share option having the form of a subscription right) that are still outstanding (at the date of this report) under the "2021 Share Options" plan for directors, employees and other staff members of the Company and its subsidiaries, entitling the holder thereof to acquire one new share when exercising one of his or her share options (the "**2021 Share Options**").

The Executive Share Options, the 2018 Share Options and the 2021 Share Options are hereinafter jointly referred to as the "**Share Options**". In this report, when reference is made to any "outstanding" Share Options, this refers to, respectively, Share Options that have not yet been granted but can still be granted and (depending on the terms and conditions of such Share Options) have not yet expired, and Share Options that have already been granted and (depending on the terms and conditions of such Share Options) have not yet expired. For the purpose of the full-dilution scenario calculations further below, it is assumed that all of the 2,217,627 existing Share Options (*i.e.*,

outstanding and still to be granted) were granted, have vested, are immediately exercisable (regardless of their terms and conditions), and have been fully exercised prior to the exercise of the Bootstrap Warrants.

- (c) In July 2020, the Company entered into a subordinated loan agreement with PMV/z-Leningen NV ("**PMV/z**"), which was amended in December 2021, for an aggregate principal amount of up to EUR 4.3 million, of which a loan for a principal amount of EUR 0.8 million can still be converted by PMV/z for new ordinary shares of the Company in the event of a future equity financing or sale of the Company. The conversion can be carried out by means of a contribution in kind of the respective payables due by the Company under the loan (whether as principal amount or as interest) (the "**Convertible Loan Payable**") to the share capital of the Company. The loan has a term of 60 months, and is repayable in full upon expiry of the term. The loan bears an interest of 6.5% per annum, except that the convertible portion of the loan bears an interest of 5.5% per annum. The price per share at which the Convertible Loan Payable can be converted through a contribution in kind in the event of an equity financing or sale of the Company will be equal to 75% of the price of the Company's shares as will be reflected in the relevant equity financing or sale. Although the proposed Transaction or an exercise of Bootstrap Warrants would not qualify as a relevant equity financing that triggers the right, but not the obligation, for PMV/z to contribute its Convertible Loan Payable, the full-dilution scenario calculations further below will, in order to reflect the maximum dilution, nevertheless assume that:

- (i) the Convertible Loan Payable is contributed in full to the share capital of the Company (taking into account, however, that PMV/z has no right to contribute its Convertible Loan Payable as a result of the Transaction or an exercise of the Bootstrap Warrants);
- (ii) for the purpose of the interest calculation, the contribution in kind is effected on 14 April 2022; and
- (iii) the Convertible Loan Payable will be contributed into the share capital of the Company at a subscription price per share of 75% of the closing price of the Company's share on the regulated market of Euronext Brussels on 14 April 2022 (EUR 6.66 per share).

This would lead to the following amounts for the Convertible Loan Payable to be contributed in kind:

| | Principal Amount (in EUR) | Accrued Interests (in EUR) ⁽¹⁾ | Amount to be contributed (in EUR) ⁽²⁾ | New Shares to be issued upon contribution Subscription price of EUR 5.00 ⁽³⁾ |
|-------|------------------------------|--|--|---|
| PMV/z | 800,000.00 | 76,022.22 ⁽¹⁾ | 876,022.22 | 175,204 |

Notes:

- (1) Carries an interest of 5.5% per annum (360-day period) as from 31 July 2020 and until 14 April 2022.
- (2) Sum of the principal amount of the relevant Convertible Loan Payable and the accrued interests.
- (3) Assuming a subscription price of EUR 5.00, representing a 25% discount to the closing price of the Company's share on the regulated market of Euronext Brussels on 14 April 2022 (EUR 6.66 per share).

- (d) It is assumed that the Bootstrap Warrants are validly issued by the EGM, have become fully exercisable, and have been validly exercised by Bootstrap in accordance with one of the agreed exercise mechanisms set out in the Conditions:
- (i) If the Bootstrap Warrants are fully exercised in accordance with the Cash Exercise mechanism set out in Condition 4.8(a), 302,804 new shares would need to be issued by the Company against an issue price of EUR 3.21 per new share;
 - (ii) If the Bootstrap Warrants are fully exercised in accordance with the Cashless Exercise mechanism set out in Condition 4.8(b), 156,969 new shares would need to be issued by the Company against an issue price of EUR 0.1036 per new share (*i.e.* the fractional value of the shares of the Company) (assuming that the reference price of the Company's share on the regulated market of Euronext Brussels (used to determine the number of shares to be issued in accordance with the applicable formula set out in Condition 4.8(b)) is equal to EUR 6.45 per share) (*i.e.*, the average of the closing prices of the Company's shares on the regulated market of Euronext Brussels over the thirty calendar day period ending on (and including) 14 April 2022); and
 - (iii) If the Bootstrap Warrants are fully exercised in accordance with the Net Exercise mechanism set out in Condition 5 (which is only possible in the event of specific sale events), 0 new shares will be issued, but an aggregate amount of EUR 981,084.96 should be paid by the Company to Bootstrap (assuming that the reference price of the Company's share on the regulated market of Euronext Brussels (used to determine the amount to be paid in accordance with the applicable formula set out in Condition 5) is equal to EUR 6.45 per share) (*i.e.*, the average of the closing prices of the Company's shares on the regulated market of Euronext Brussels over the thirty calendar day period ending on (and including) 14 April 2022).

Whether the Bootstrap Warrants will be effectively exercised will ultimately depend on the decision of Bootstrap. Such decision will likely be in function of the market price of the shares of the Company at the moment of exercise compared to the exercise price of the Bootstrap Warrants. Bootstrap could amongst other things realise a capital gain at the time of exercise of the Bootstrap Warrants if the market price of the shares of the Company at that moment is higher than the exercise price of the Bootstrap Warrants, and if the shares can be sold at such price on the market. As a result Bootstrap will likely not exercise the Bootstrap Warrants if the market price of the shares of the Company is less than EUR 3.21 per share (please note that the market price of the shares of the Company on the regulated market of Euronext Brussels on the trading day preceding the date of this report (*i.e.*, EUR 6.72 per share) is higher than the aforementioned exercise price of EUR 3.21 per share). The aforementioned also applies to the exercise of the Share Options.

7.2. Evolution of the share capital, voting power, participation in the results and other shareholder rights

Each share in the Company currently represents an equal part of the share capital of the Company and provides for one vote in function of the part of the capital it represents. The issuance of the new shares pursuant to the exercise of the Bootstrap Warrants will lead to a dilution of the existing shareholders of the Company and of the relative voting power of each share in the Company. It should be noted that the aforementioned dilution relating to the Bootstrap Warrants has already been approved by the Company's shareholders' meeting in the past (as the Bootstrap Warrants are merely the continuation of a subscription right that has

already been approved, granted and issued in the past (and which has been reflected in the Company's articles of association since 2018), but which expired).

The dilution relating to the voting right also applies, *mutatis mutandis*, to the participation of each share in the profit and liquidation proceeds and other rights attached to the shares of the Company, such as the statutory preferential subscription right in case of a capital increase in cash through the issuance of new shares or in case of the issuance of new subscription rights or convertible bonds.

Specifically, prior to the exercise of the Bootstrap Warrants (and the issuance of new shares pursuant to the outstanding Share Options and the issuance of new shares pursuant to the contribution in kind of the Convertible Loan Payable), each share of the Company participates equally in the profit and liquidation proceeds of the Company and each shareholder has a statutory preferential subscription right in case of a capital increase in cash or in case of the issuance of new subscription rights or convertible bonds. Upon the issuance of the new shares within the framework of the exercise of the Bootstrap Warrants, the new shares to be issued will have the same rights and benefits as, and rank *pari passu* in all respects with, the existing and outstanding shares of the Company at the moment of their issuance and delivery and will be entitled to dividends and other distributions in respect of which the relevant record date or due date falls on or after the date of issuance and delivery of the shares. As a result (and to the extent the new shares will be issued and subscribed for), the participation by the existing shareholders in the profit and liquidation proceeds of the Company and their holder's statutory preferential subscription right in case of a capital increase in cash, shall be diluted accordingly.

The evolution of the share capital and the number of shares, with voting rights attached thereto, of the Company as a result of the exercise of the Bootstrap Warrants is simulated below and this in a scenario before exercise of outstanding Share Options, as well as in a scenario in which all Share Options are exercised.

Subject to the methodological reservations noted in paragraph 7.1, the table below reflects the evolution of the number of outstanding shares, assuming a number of new shares to be issued to the benefit of Bootstrap equal to 302,804 new shares (in the event of a Cash Exercise), 156,969 new shares (in the event of a Cashless Exercise), and 0 new shares (in the event of a Net Exercise). For more information about the number of new shares to be issued to the benefit of Bootstrap in the framework of the exercise of the Bootstrap Warrants, see paragraph 7.1.

Subject to the methodological reservations noted in paragraph 7.1, the table below reflects the evolution of the share capital, assuming a number of new shares to be issued to the benefit of Bootstrap equal to 302,804 new shares (in the event of a Cash Exercise), 156,969 new shares (in the event of a Cashless Exercise), and 0 new shares (in the event of a Net Exercise). The maximum amount of share capital increase (excluding issue premium) is computed by multiplying the relevant number of new shares to be issued to Bootstrap with the fractional value of the shares of the Company, *i.e.*, currently rounded EUR 0.1036 per share.

| Fractional value (in EUR) (rounded). | 0.1036 | 0.1036 | 0.1036 |

Notes:

- (1) This simulation does not take into account the exercise of the outstanding Share Options, nor the contribution in kind of the Convertible Loan Payable.
- (2) A portion of the issue price that is equal to the fractional value of the existing shares of the Company (being rounded EUR 0.1036 per share) shall be booked as share capital. The portion of the issue price in excess of the fractional value shall be booked as issue premium.

7.3. Participation in the consolidated accounting net equity

The evolution of the consolidated accounting net equity of the Company as a result of the exercise of the Bootstrap Warrants is simulated below. The simulation is based on the following elements:

- (a) The audited consolidated annual financial statements of the Company for the financial year ended on 31 December 2021 (which have been prepared in accordance with the International Financial Reporting Standards, as adopted by the European Union ("IFRS")) and which will be submitted for approval to the annual general shareholders' meeting of 27 May 2022. The consolidated accounting net equity of the Company as at 31 December 2021 amounted to EUR -786,919.00.
- (b) The simulation does not take into account any changes in the consolidated accounting net equity since 31 December 2021, except, however, that for the purpose of the simulation, the impact of the private placement completed on 10 March 2022, on the consolidated net equity (per share) will be taken into account.

As a result of the aforementioned completion of the private placement completed on 10 March 2022 (not taking into account possible effects of accounting items other than the share capital and the issuance premium (for example the expenses of said private placement)):

- (i) the share capital of the Company was increased as a result of which the Company's net equity was increased by an amount of EUR 28,419,974.00, whereby an amount of EUR 535,328.96 was booked as share capital and an amount of EUR 27,884,645.04 was booked as share premium; and

- (ii) the number of outstanding shares of the Company following the private placement completed on 10 March 2022 amounted to 23.746.528 shares (as 5.167.268 new shares were issued).

Consequently, for the purposes of the simulations below, the adjusted consolidated accounting net equity as at 31 December 2021 will be assumed to amount to EUR 27,633,055.00.

For further information regarding the Company's net equity position on 31 December 2021, reference is made to the financial statements of the Company, which are available on the Company's website.

Based on the assumptions set out above, as a result of the exercise of the Bootstrap Warrants, the Company's accounting net equity on a consolidated basis, would be increased as indicated below:

| | Exercise of the Bootstrap Warrants | | |
|--|---|--------------------------|----------------------------|
| | Cash Exercise | Cashless Exercise | Net Exercise |
| Consolidated net equity for FY 2021 (adjusted) | | | |
| Net equity (in EUR) (rounded) . | 27,633,055.00 | 27,633,055.00 | 27,633,055.00 |

| Net equity per share (in EUR) (rounded) | 1.19 | 1.16 | 1.12 |

Notes:

- (1) Consisting of the amount of the capital increase and the amount of the increase of issue premium, as the case may be, but not reflecting that the accounting of this amount may be subject to further adjustments pursuant to IFRS or IAS 34.
- (2) In the event of a Net Exercise (which is only possible in the event of specific sale events), the Company will need to pay Bootstrap and amount of EUR 981,084.96 (which would negatively impact the Company's cash position). For more information see paragraphs 3.1 and 7.1.

7.4. Financial dilution

The evolution of the market capitalisation as a result of the exercise of the Bootstrap Warrants is simulated below.

Subject to the methodological reservations noted in paragraph 7.1, the table below reflects the impact of the exercise of the Bootstrap Warrants on the market capitalisation and the resulting financial dilution, assuming a number of new shares to be issued to the benefit of Bootstrap equal to 302,804 new shares (in the event of a Cash Exercise), 156,969 new shares in the event of a Cashless Exercise), and 0 new shares (in the event of a Net Exercise).

After close of trading on 14 April 2022, the Company's market capitalisation was EUR 158,151,876.48, on the basis of a closing price of EUR 6.66 per share. Assuming that, following the exercise of the Bootstrap Warrants, the market capitalisation increases exclusively with the funds raised (*i.e.*, EUR 972,000.84 funds raised in the event of a Cash Exercise, EUR 16,261.99 funds raised in the event of a Cashless Exercise, and EUR 0.00 funds raised in the event of a Net Exercise (it being understood that in the event of a Net Exercise, the Company shall need to pay an amount of EUR 981,084.96 to Bootstrap), the new market capitalisation would be (rounded) EUR 6.62 per share (in case of a Cash Exercise, a Cashless Exercise, and a Net Exercise). This would represent a (theoretical) financial dilution of (rounded) 0.60% per share (in case of a Cash Exercise, a Cashless Exercise, and a Net Exercise). This also shows that the effect of the different forms of exercise (Cash Exercise, Cashless Exercise and Net Exercise) from a financial dilution perspective is conceptually similar.

| Dilution | 0.60% | 0.60% | 0.60% |

Notes:

- (1) At the date of this report and not taking into account the potential issuance of new shares upon exercise of outstanding Share Options or upon contribution in kind of the Convertible Loan Payable.

- (2) In the event of a Net Exercise (which is only possible in the event of specific sale events), the Company will need to pay Bootstrap and amount of EUR 981,084.96 (which would negatively impact the Company's cash position). For more information see paragraphs 3.1 and 7.1.

7.5. Other financial consequences

It is expected that within the framework of the Company's consolidated financial statements in accordance with IFRS (as defined above), the Bootstrap Warrants will be accounted for in accordance with (amongst others) International Accounting Standard 32 ("*Financial Instruments: Presentation*"), as adopted by the European Union. The actual application of the reporting standard, the initial recognition moment, and the valuation of the Bootstrap Warrants is still to be determined and assessed. The accounting impact of the Bootstrap Warrants, if any, will be reported in the FY22 consolidated financial statements of the Company. The financial impact of the Bootstrap Warrants is expected to be material (it being noted that the aforementioned conclusion is still under review by the Company's management and has not yet been validated by the Company's statutory auditor).

8. EFFECT OF THE EXERCISE OF THE BOOTSTRAP WARRANTS ON THE SHAREHOLDING OF BOOTSTRAP

Following the issuance of new shares pursuant to the exercise of the Bootstrap Warrants, subject to the assumptions set out below, Bootstrap will hold the number of shares in the Company as illustrated below.

| | Exercise of the Bootstrap Warrants | | |
|---|---|--------------------------|---------------------|
| | Cash Exercise | Cashless Exercise | Net Exercise |

| Percentage on a fully-diluted basis ⁽³⁾ | 1.27% | 0.72% | 0.13% |

Notes:

- (1) Assuming a number of new shares to be issued to the benefit of Bootstrap upon exercise of the Bootstrap Warrants equal to 302,804 new shares (in the event of a Cash Exercise), 156,969 new shares (in the event of a Cashless Exercise), and 0 new shares (in the event of a Net Exercise). For further information on the elements used to calculate these numbers, reference is made to paragraph 7.1 of this report.
- (2) Based on a total number of shares equal to the sum of the 23,746,528 existing shares of the Company and the relevant number of new shares to be issued to the benefit of Bootstrap as set out in note (1) above.
- (3) Based on a total number of shares equal to the sum of the 23,746,528 existing shares of the Company, the relevant number of new shares to be issued to the benefit of Bootstrap as set out in note (1) above, the 2,388,742 new shares to be issued upon exercise of the outstanding Share Options, and the 175,204 new shares to be issued upon contribution in kind of the Convertible Loan Payable. For further information on the elements used to calculate these numbers, reference is made to paragraph 7.1 of this report.

SEQUANA MEDICAL NV

BOOTSTRAP WARRANTS

WARRANTS TO SUBSCRIBE FOR NEW ORDINARY SHARES

CONDITIONS OF THE WARRANTS

On 2 September 2016, the Company (as defined below) granted Bootstrap (as defined below) the right to subscribe to shares of the Company in the framework of a broader financing arrangement. As a result of the "IPO Share Consolidation" that was approved by the extraordinary shareholders' meeting of the Company that was held on 18 January 2019, which entered into force on 12 February 2019, Bootstrap holds the right to subscribe for a maximum of 302,804 new shares of the Company at an exercise price of EUR 3.21 per new share.

On 2 September 2021, Bootstrap's aforementioned right expired in its initial form as a "subscription right" issued by the Company, but is to be renewed as contemplated by a warrant agreement dated 2 September 2016 that was entered into by the Company and Bootstrap, as amended and supplemented on 28 April 2017, 1 October 2018, 20 December 2018, and 1 September 2021.

The present terms and conditions contain the issue and exercise conditions of the renewed warrants (in the form of ten (10) "subscription rights") to be issued by the Company to the benefit of Bootstrap (as contemplated by the aforementioned contractual arrangements).
