

Sequana Medical to present at Jefferies London Healthcare Conference

Ghent, Belgium – 8 November 2022 – Sequana Medical NV (Euronext Brussels: SEQUA, the "Company" or "Sequana Medical"), a pioneer in the treatment of drug-resistant fluid overload in liver disease, heart failure and cancer, today announces that Ian Crosbie, Chief Executive Officer, will present at the Jefferies London Healthcare Conference, taking place from 15 to 17 November 2022.

The Company will provide an update on its **alfapump**[®] program, which has recently reported positive primary endpoint data from the North American pivotal POSEIDON study in recurrent or refractory ascites due to liver cirrhosis, enabling the filing of a Pre-Market Approval (PMA) application with the FDA, planned for H2 2023. The Company will also provide an update on DSR[®] (Direct Sodium Removal), its disease-modifying drug program for the treatment of heart failure, for which a US randomized controlled Phase 1b/2a clinical study is planned to begin in H1 2023.

Details company presentation with live webcast

- Thursday, 17 November 2022 at 10:55 am GMT / 11:55 am CET

About Sequana Medical

Sequana Medical NV is a pioneer in treating drug-resistant fluid overload, a serious and frequent clinical complication in patients with liver disease, heart failure and cancer. Fluid overload is a well-recognized problem in these growing diseases, causing severe problems for the large number of patients for whom current medicines are no longer effective. These patients can have up to 15 liters of extra fluid in their bodies, causing major medical issues including increased mortality, repeated hospitalizations, severe pain, difficult breathing and restricted mobility that severely impacts daily life.

alfapump[®] and **DSR**[®] are Sequana Medical's proprietary platforms that work with the body to remove this excess fluid, delivering major clinical and quality of life benefits for patients and reducing costs for healthcare systems. Sequana Medical is listed on Euronext Brussels (Ticker: SEQUA.BR) and headquartered in Ghent, Belgium. For further information, please visit www.sequanamedical.com.

Important Regulatory Disclaimers

*The **alfapump**[®] system is currently not approved in the United States or Canada. In the United States and Canada, the **alfapump** system is currently under clinical investigation (POSEIDON Study) and is being studied in adult patients with refractory or recurrent ascites due to cirrhosis. For more information regarding the POSEIDON clinical study see www.poseidonstudy.com. **DSR**[®] therapy is still in development and it should be noted that any statements regarding safety and efficacy arise from ongoing pre-clinical and clinical investigations which have yet to be completed. **DSR** therapy is currently not approved for clinical research in the United States or Canada. There is no link between **DSR** therapy and ongoing investigations with the **alfapump** system in Europe, the United States or Canada.*

Note: **alfapump**[®] is a registered trademark. **DSR**[®] is a registered trademark in the Benelux, China, the EU, United Kingdom, and Hong Kong.
